The Power of Kindness.

Tsunami Relief Project: Sri Lanka.

Since April 2005, Service International (SI) has sent seven volunteer teams to work with local Sri Lankans impacted by the devastating tsunami that hit in December of 2004. Recently, a team of 15 volunteers returned to the States after building the walls of eight houses during their twelve-day trip.

Volunteer Ray Zepp, tells of an elderly woman who had been sleeping outside by the edge of a trail. Everything she had was washed out to sea. "I wish you could have seen the delight on her face when we brought her food, invited her to eat with us, and began building her a house. It's amazing to be able to bring so much joy to these gentle, loving people."

Rebuilding Lives.

SI Helps Provide Some Of The First Permanent Housing.

SI's work in Sri Lanka has brought tangible hope to the people and it has also boosted the local economy. SI has hired local workers to make bricks; contracted professional stonemasons to train these workers; and purchased two brick-making machines to increase productivity and efficiency.

To date, SI has completed 59 homes, and 33 more are under construction. These houses are being built without consideration for religion, race, or caste barriers, and the people of Sri Lanka are experiencing the hands-on love and kindness of Jesus Christ!

A Volunteer's Thoughts: "I knew I would learn a lot about Sri Lanka and the people there, but I had no idea I would learn so much about myself."

Service International Profile.

For more than a decade, Service International has been coordinating relief efforts locally, nationally, and around the globe—mobilizing volunteers to alleviate suffering caused by floods, tornadoes, hurricanes, and war.
